PROFESSIONAL SUMMARY

Computer Systems Engineer and Frontend Developer Trainee focused on building responsive, user-centered web interfaces. Hands-on experience with HTML, CSS, JavaScript, Bootstrap, Git/GitHub, Jira, and Figma basics through collaborative and individual projects. Strong background in UX/product thinking, requirements analysis, documentation, Agile teamwork, process follow-up, and clear communication.

SKILLS

Frontend: HTML5 | CSS3 | JavaScript | Bootstrap | Responsive Design | DOM

Tools: Git | GitHub | VS Code | Vercel | Jira | Figma

UX/Product: User flows | Wireframes | MVP planning | Design systems | Requirements analysis | Product documentation

Collaboration: Agile/Scrum | Sprint planning | Teamwork | Process follow-up | Clear communication

PROJECTS

Caliope — Reading & Writing Platform MVP

Frontend | UX/Product | Collaborative project

- Contributed to MVP definition, requirements analysis, user flows, navigation structure, and product documentation.
- Built and refined responsive interfaces using HTML, CSS, Bootstrap, and JavaScript fundamentals.
- Designed screen structure, UI components, cards, modals, forms, navigation patterns, and visual consistency.
- Collaborated in an Agile/Scrum environment using Jira, Git, and GitHub for task tracking and version control.

Tech: HTML | CSS | JavaScript | Bootstrap | Git | GitHub | VS Code | Jira | Figma

Pomodoro Timer

Frontend | JavaScript | Individual project

- Built a functional Pomodoro timer with start, pause, reset, work/break intervals, and session tracking.
- Practiced DOM manipulation, events, timer logic, UI states, and progress indicators.
- Designed a clean, responsive interface focused on usability and visual clarity.

Tech: HTML | CSS | JavaScript | DOM | VS Code | Git | GitHub | Vercel

PROFESSIONAL EXPERIENCE

Operations Supervisor | TP

Apr 2025 – Aug 2025

- Analyzed operational indicators, request volume, resolution trends, and recurring issues to identify improvement opportunities.
- Created structured reports, documentation, and follow-up processes to improve visibility and team performance.
- Coordinated daily activities, internal communication, and process follow-up in a fast-paced environment.
- Strengthened analytical thinking, problem-solving, communication, leadership, organization, and attention to detail.

Bilingual Reservations Support Representative | TP

Jun 2024 – Apr 2025

- Handled user requests through calls, chat, and email in a bilingual environment.
- Identified user needs, clarified requests, and communicated clear solutions following established processes.

HR Delivery Associate | Conduent

May 2022 - Feb 2024

- Managed candidate follow-up, document tracking, and onboarding process coordination.
- Created an Excel tracking system to improve process visibility and follow-up control.
